

Hello Tim,

I would like to thank you for all of the work that you have done to help us achieve and retain the Lienso and with your help and knowledge of Landscape Architecture you knew what our needs were on this subject.

With your Ideas you were a great help with selling the idea and plans to the City of Escondido. With your understanding of working with all ethnic groups you came out and made everyone feel at ease and want to work together.

In the end we have gained this great Caballo Park that hopefully will be completed in the near future.

You now have knowledge of this great sport of ours, as it dates way back in History of early California, as you already know. I would like to thank you on behalf of all our Charro Members from Ben, the President, on down. We would like for you to stay in touch with us and you are always invited to our events to see how we are coming along.

We would like to see you at the Lienso this May 10/11 if possible. We will be celebrating Mother's Day, Charro style so come on down and bring the family.

Very Respectfully,

Sergio Contreras
Treasurer Charros de El Caballo Park..
