RE: Tim Smith- Wynn-Smith Landscape Architecture

To whom it may concern,

As owner of Rossi Architecture I am pleased to recommend Tim Smith and the firm Wynn-Smith Landscape Architecture for consideration of all Landscape Architecture services. Tim and his firm have worked with my firm on various projects over the last six years and have been invaluable to the success of the projects.

Rossi Architecture is a full service architectural firm that specializes in resort hotel properties. Landscape is a key component to the design process of our work. Tim and his team understand the importance of teamwork and have the ability to bring together their expertise and coordinate with various disciplines to complete a project.

Tim's design skills should also be commended. He is willing and able to jump in and help solve various design issues. They have varied from simple plant placement to more complex issues such as space planning and how people experience the space and site. Wynn-Smith is there when problems need to be solved.

I would without hesitation recommend Tim Smith and the firm Wynn-Smith for your project. They will be a great asset to any project requiring landscape architecture services.

Sincerely,

A handwritten signature in blue ink that reads "Steve Rossi". The signature is written in a cursive, flowing style.

Steve Rossi
Architect
